*"The Phlebology Colorado meeting in Telluride was the most dynamic and interactive phlebology meeting I have ever attended. The format of the meeting encouraged discussion and I came away with numerous ways to make my phlebology practice better. I will definitely be back next year."*

**M. Manning MD**

## Invitation to Attend

Our dear friend and mentor John R. Kingsley, MD brought us together in Telluride to share our love of the mountains, our passion for our work and our need to collaborate on the problems and challenges of modern phlebology. John’s vision of a free flowing exchange of ideas, a robust debate, a transparent review of difficulties we encounter in our work along with our close association with key industry sponsors set Colorado Phlebology apart from other medical meetings.

John was intent on making Colorado Phlebology a meeting that truly served its attendees and sponsors. He appreciated the attendee input which came in from 360 degrees. John felt that traditional medical meeting format stifled dialogue and gave more weight to podium speakers than was warranted amongst a knowledgeable audience.

Our collective participation makes Colorado Phlebology what it is and what it can become as we carry on John’s vision. John’s passing still seems impossible to all of us. We all experienced that it did not take long for John to become one’s dear friend. We know that time will not grant us a reprieve from our loss.

Myself and Leon Olsen are making preparations for the February 2020 meeting. It will be a good meeting once again and will certainly afford us time to remember our dear friend.

We hope, in concert with John’s belief, that the meeting will continue to grow and prosper because of the core concept of collegial sharing.

Respectfully  
Paul M. McNeill, MD (Director)
